

Dear Adele van der Walt Inc,

Firstly, I am very grateful for the opportunity of hope in life.

I was once depressed as to how I should start my own family while I am a lesbian. For many years I kept this to myself and coming out to friends and family has assisted me to journey in meeting up with Adele van der Walt Attorneys. We also came in with a lot of parenting questions and life uncertainty and certainties.

The consultation sessions we had with the referred lawyers answered most of our questions, it gave us life choices, considerations and help us to make life decisions. Adele van der Walt Inc. is the specialist's firm, they made us focus on issues we overlooked, and it also assisted us in re-looking at our priorities.

I am glad to have made a professional relationship with the attorneys and to know that all arrangements were made in the best interest of our unborn child.

As I want a very big family, I have no doubt to keep coming back to Adele van der Walt Attorneys to make my dream come true. Your correspondence, communication, and turnaround time made us feel like we are your only clients, and you were mostly available on request.

I will never have enough words to thank you for your service, but you are touching lives, and keep up the good work, my experience is there is no room for improvement.

You are the best,

K & L
